Other notes that may help

NCF - No-Conscription Fellowship. The principal national organisation of which the vast majority, but not all, of COs were members. This shows the CO's NCF branch. There may also be a reference to the NCF in the Motivation section.

Motivation: This includes, where known, the organisations or the principles, on which the CO based his refusal to serve.

Tribunals: References here to the various Tribunals before which COs appeared to assert their CO and appeal for exemption, including the National Tribunal which also adjudicated on the validity of a CO's claim as the basis for allowing him to take the Home Office Scheme under the Brace Committee.

Central Tribunal: COs who went before the Central Tribunal were given a number and classified on a four point A to D scale. This is also used for those COs who applied to the Central Tribunal for permission to vote under the terms of the 1918 Representation of the people Act.

Magistrates Court: COs who failed to answer their call-up were arrested and taken to court as Absentees

Comments: Any additional detail about the court case. Also used for those COs and their sympathisers who fell foul of the Defence of the Realm Act (DoRA)

Service Details: An account of the nature of their service, Courts Martials, sentences etc. also something of the detail of service in the Friends' Ambulance Unit, Friends' War Victims Relief, Work of National Importance etc.
